## 800 THINLY CLAD GUESTS ESCAPE \$100,000 L. A. HOTEL FIRE

Korean Seriously Injured In Desperate Leap From Third Story

LOS ANGELES, March 15.—Eight hundred guests of the exclusive Rosslyn Hotel fled into the streets thinly clad early today as a result of a fire discovered in the older part of the establishment. The basement of the hotel and some of the business houses in the hotel block were damaged. The loss is estimated at \$100,000.

Y. K. Lee, a Korean, was probably fatally injured by jumping from the third floor.

Confusion reigned as smoke swept through the upper floors of the hotel, and for a time, it was feared the panic among the scantily clad men and women would result in loss of life. However, the majority of the people escaped by the stairways and elevators, and the rest were rescued from fire escapes or their rooms by firemen, police and hotel attendants.

As the main portion of the Rosslyn Hotel is in a fireproof structure, the hotel itself was not greatly damaged. All of the small business houses in the Rosslyn building facing on Main street were badly damaged by both fire and water.

## ASSEMBLY COMMITTEE HEARS TALKS ON ROAD ENGINEER LAW PLANS

SACRAMENTO, Mar. 15.—Arguments for and against the bills providing for the appointment of county road engineers to take charge of highway construction were heard by the assembly road and highways committee this week, and will be voted on by the committee within a few days. Representatives of the state association of county supervisors spoke against the bill, their chief contention being that it would create a needless office at the expense of the taxpayers. County Supervisor Sourwine of San Bernardino supported the bills, saying that the principle has been applied in this county, and has been a great success, giving efficient administration of road affairs and removing politics from roadbuilding. He objected, however, to the provisions in one of the bills giving the state engineer power to pass on the eligibility of those to be appointed county road engineers. He said this would result in the state government being given a system of county political patronage which he declared "vicious."

## BACK WILSON, ADVICE GERMAN BARBERS GET FROM N. Y. SHOP OWNER

NEW YORK, March 15.—The German proprietor of a string of barber shops here today sent a circular letter to all his foreign-born employees urging them to "stand behind the President, whatever decision he may make." The writer is a native of Germany who has made all he has in the United States.

"You, or your fathers before you," says the letter, "came to this country seeking social and political liberty. That you should retain in your hearts the love of your Fatherland is but natural. But now that the country of our adoption is itself threatened by the danger of war in the defense of the honor and integrity of its people and its institutions, there is no allegiance which can be yours save the single, absolute and unadorned allegiance to America."

## CADETS IN CHICAGO AGAIN TO FIGHT BIG GETTYSBURG BATTLE

CHICAGO, March 15.—The battle of Gettysburg soon will be fought over again in all its intricate details here on Chicago soil.

Again in forced marches the invaders will come from the southland in the persons of a picked team of the Washington, D. C., high school cadets to meet the Chicago cadets in the new war game.

The battle will be fought on a miniature battlefield, twenty feet square. Red and blue pegs, the opposing armies, will sway back and forth over the canvas until the United States army officer judges award the victory to one or the other faction.

## CHICAGO LAWYER, ILL. ELUDES NURSE, DIVES 18 STORIES TO DEATH

NEW YORK, Mar. 15.—Rudolph Matz, a Chicago lawyer, leaped from the window of a room on the eighteenth floor of the Belmont hotel here early today and was killed instantly.

Mrs. Matz, who was with him, said her husband had been ill. Matz, who was sleeping in a room with a male nurse, slipped from his bed and opened the window. The nurse, awakened by the cold draft, found his patient gone and began a search. Meanwhile guests who heard the crash of the body, had begun telephoning the desk. A policeman found the crushed body.

## DILLON HAPLESS SAYS HAMILTON

BY H. C. HAMILTON  
(United Press Staff Correspondent)

NEW YORK, March 15.—Jack Dillon, erstwhile Indianapolis bearcat, mankicker, and holder of several other sanguinary titles, is the most unfortunate scrapper inhabiting the United States. His refusal to battle Jim Flynn after he had lost his chance to get on with Les Darcy, brought it out fully.

When Dillon came to New York not a long time ago, Billy Miske battled him for ten rounds and did a fairly good job of it. Dillon scored heavily against the St. Paul false alarm, but he was much surprised the next day to discover that nearly every newspaper in the city had come to the conclusion that Miske had beaten him.

Then Jack came back to New York and met Miske again. He didn't make quite so good a showing, but he did quite well and easily held Miske to a draw. However the critics again set it down as a victory for Miske.

Then Dillon got mad. He came to the conclusion that his former roughness had got him in bad. He had made such a habit of beating up his opponents that critics were unable to see his side of the bout when he failed to knock somebody down a few times when he appeared in a ring.

So he got himself matched up with Al McCoy as a prelude to his battling Darcy. He whipped McCoy so badly it was a shame, but he was incensed when he awakened the next morning and found himself criticized for not knocking McCoy out. In fact two rounds of the scrap were credited to McCoy by more than one.

McCoy took a beating that many a heavyweight would have fallen under. He was hit plenty of times and he was hit hard. He deserved full credit for winning the bout just as far as he did, but he didn't get it. Dillon says he won't fight again in New York. No one can censure him for such a decision. He was rapidly losing his reputation when he decided to go back to Indiana.

## MUCH EXTRA WORK IN MARCH

It's between seasons now, when few persons perspire as much as health demands. The result is double work for the kidneys, for the kidneys must throw out waste matter from the system that is eliminated through the pores when persons perspire. Overworked, weak or disordered kidneys need help now. B. H. Stone, Reading, Pa., writes: "Whenever I need a kidney remedy I rely on Foley Kidney Pills. They have been worth their weight in gold to me." Rowley Drug Co.

## A Corset Exhibit of Rare Beauty

—A most attractive exhibit of the new models of Corsets is being made in our Fourth Street front.

—These models were secured by Express from the factories to exhibit the latest and best ideas in corsetry embracing the well known lines we carry.

—We believe you will appreciate this showing as well as the privilege of inspection of the Corsets in our department, where an expert will serve you.

## La Camille Front Lace

—Smartest ideas in Corsetry are embodied in our "La Camille" Front Lace corsets. Absolutely authoritative for style, they mould the body to express its greatest charm and beauty.

—The patented "Ventilo" Back is a great corset improvement. In addition to providing ventilation, it removes all pressure from the spine. The front shield prevents scoring of the flesh.

—Models for all figures, both high and low bust, in white and flesh pink. Prices \$2.00, \$2.50, \$3.00, \$3.50, \$4.50, \$5.00, \$6.50, \$7.00, \$7.50, indicates the extent of our line.

## Nemo Self Reducing

—Science, invention, experience, all combined have resulted in obtaining the perfection of corset comfort and durability embodied in the Nemo.

—One of the excellent features of the "Nemo" is the self-reducing qualities combined with the "Wunderlift" bands which are adapted especially to stout figures.

—We show an extensive range for medium and stout figures, and some numbers for slender figures, when great durability is desirable. Prices from \$3.50 to \$5.00.

## W. B. Nuform

—The "W. B." is among the best of the lower priced corsets, always dependable in quality, always accurate in style, always satisfying to the wearer.

—We show a satisfying range of models for slender and medium figures, strictly new and very pretty in the novelty brocades, or plain materials in white and flesh pink. Prices, \$1.00 to \$2.00.

—You will find other well known, well liked lines in our extensive stock. "Her Majesty" is a low priced, high value corset. Ferris and Sahlin waists are here in all the wanted models and sizes.

## BRYAN MAY BE ON CHAUTAUQUA PROGRAM HERE

No Word to That Effect Received, But Is Expected By Local Chairman

While no official announcement to that effect has been received by A. B. Gardner, chairman of the local Chautauqua guarantors, there is every reason to believe that William Jennings Bryan is to be one of the speakers brought to Santa Ana by the Redpath-Horner Chautauqua.

In the last letter from the Kansas City headquarters of the Chautauqua, Gardner was given an outline of some of the attractions to be presented. That outline did not include the ex-secretary of state. Since then, however, the Fresno Chautauqua committee has received word that Bryan is to be the star attraction this year. The other attractions given the Fresno committee is the same as that given Santa Ana the week previous.

Gardner has written to the Chautauqua people urging that the Chautauqua be given either in July or in April. The school authorities say that the Chautauqua coming in a school week would demoralize school work. For that reason the proposal was made that if the Chautauqua could be dated for April, the spring vacation of the Santa Ana schools could be shifted to meet the Chautauqua date. This plan has received favorable consideration at the hands of the school authorities, and Chairman Gardner is now awaiting word from the Kansas City headquarters as to the exact date to be given Santa Ana. He may also receive word in the next communication from headquarters as to whether or not William Jennings Bryan will speak in Santa Ana.

## EDITOR REGISTER BUYS AT HUNTINGTON BEACH

The Huntington Beach Company sold yesterday to J. P. Baumgartner, editor of the Register, two 50-foot lots on the Seventeenth street boulevard. These lots are located on the southeast side of the boulevard, about five blocks from the ocean and within three or four blocks of the beautiful new grammar school. They are on high ground, commanding a beautiful view in all directions.

Seventeenth street, which is very wide, has recently been paved and ornamental lights have been placed along both sides of it, making it one of the finest of residence streets. The price paid by Mr. Baumgartner for his choice lots, one of which is a corner lot, was \$2200.

### IMPORTANT IF TRUE

It is such an old, universal, persistent and apparently incurable mental malady among Los Angeles newspaper men—this ignorance of the geography of Southern California—that one engages almost hopelessly in any sort of remedial effort.

Not long ago a Los Angeles editor, by telephone, requested his Santa Ana correspondent to send a photograph of the new Southern California Hospital for the Insane. The correspondent said he did not think he could find such a photograph in Santa Ana, and suggested that if one had to be made it would be better to send a photographer out from Norwalk or even from Los Angeles. "Why," exclaimed the editor in surprised tones, I thought that daffy house was within a mile or two of Santa Ana!

And now comes a staff writer of another Los Angeles paper talking about the Orange County Country Club being "situated in Santa Ana County," with the added and wholly redundant information that "this part of the country is especially well known for its unmercifully violent winds."

A reporter that would turn in that kind of copy or a copy reader that would let it get by couldn't hold a job on the smallest self-respecting country newspaper more than five minutes after the paper in which it appeared went to press.

### WAR FEMINISM

One of the results of the newer feminism which the war is bringing to Europe will doubtless be reflected in the business and mechanism of the homes. The women of Europe are doing its industrial work. When the war ends, most of them will go back home, to cook and sew and scrub and rear children. But they will not be the same women. They will know the way out, and the way from out in. They will know what it is to do organized work, and to earn money. They will no longer be bound economically to the home. A large proportion will be engaged permanently in industry, and an even larger number will move more freely back and forth between industry and the home. All of which will have its result in a freer and more independent womanhood.

But another important reaction will be felt in the always major portion of womenkind, whose permanent occupation is home-making. Industry is efficient. Homes have been inefficient. In industry, labor has been applied economically, because labor was expensive. In homes, labor has been applied extravagantly because a woman's labor costs nothing, while such money as she had was a dole, unrelated to her labor. Now women will be in the homes who have learned the lesson of industry. They will have learned the extravagance of doing things by hand or with inefficient tools instead of by machinery or with efficient tools. They will have learned to hammer nails with a hammer instead of with the nearest makeshift, and to cut things with sharp knives instead of hack them with dull ones. They will not be satisfied with the household equipment of their grandmothers, nor with the business methods of their grandfathers. They will have learned the value of skill and exactness and the superstition of "luck" in cooking will have vanished. A womanhood trained to modern methods outside the home will abolish mediaeval methods inside. And there in will be one of the greatest revolutions of the new feminism.—Fresno Republican.

### WON'T EAT IT

Some indignation was expressed in New York because poverty-stricken East Siders in many cases refused to purchase or eat the excellent Columbia river smelts, or the rice, hominy, and Brazilian beans, placed on sale at a low price by the George W. Perkins food committee. There was some sort of a "religious prejudice" against the smelts, and the rice, hominy and beans were not familiar, and so were rejected.

Foolish, isn't it, for hungry people to reject good food, cheap? But stop a minute and listen to the Fresno Republican's argument. How cheap would horse meat have to be before you would eat it? Yet, as all

of us who have eaten it can testify, horse meat is perfectly good and wholesome. The prejudice against it was originally religious. Horse meat was sacrificed to the gods, by our heathen ancestors, and then eaten at the religious festivals. The Christian missionaries found horse meat and heathenism so inextricably associated that they thought it necessary to put a sort of religious taboo on the horse meat, to put a stop to the secret practice of the discarded regions. How hungry would you have to be to eat grasshoppers? Yet grasshoppers are certainly as appetizing as shrimps and they are a favorite food for many tribes of humanity. Snails do not appeal to most American appetites, but they are a popular food in France, and we can testify that they are very good. If bread were scarce, would you eat millet? It is the usual grain food of a large part of China. The California Indians extracted the acrid tannin from acorns, by soaking them in water, and found them then good for food. Would you eat them? The Arab of the desert gets along very well on dried dates and curdled camel's milk. In India they drink ghee, or melted butter. Baked bison constrictor is a favorite dish of some savage tribes. And of course we are all familiar with the bird's nest soup and ancient eggs of the Chinese. How many of these things would you eat, if they happened to be cheap, and bread, beef and potatoes were expensive?

The fact is that those people whose gastronomic experience is most limited are the very ones who are most squeamish about trying new things. Put a new dish before an epicure and an unsophisticated villager, and the epicure will at least try it. The villager will probably be sure he does not "like" it. Provincialism in food is one of the stubbornest forms of prejudice. And it is one of the hardest obstacles to overcome, in the better feeding of the people.

### BOSTON CONTRACTOR SEES DAUGHTER FIRST TIME IN 11 YEARS

OLINDA, Mar. 15.—For the first time in eleven years, Mrs. William Annin saw her father, Charles H. Perry, a Boston, Mass., building contractor. The Boston man visited his daughter for several days and met many friends in California.

### \$1,000,000 A YEAR OFFER IS ACCEPTED BY CHARLIE CHAPLIN

ALBANY, N. Y., Mar. 15.—Charlie Chaplin is dissatisfied with his salary. He only gets \$750,000 a year, and he has accepted an offer of an even \$1,000,000 from a competing firm. It's real money, too. All this is according to no less an authority than the Wicks moving picture legislative investigating committee.

### MAN'S DREAM LEADS TO DISCOVERY OF TWO SKELETONS AT S. JOSE

SAN JOSE, Cal., Mar. 15.—Having dreamed of finding the body of his 15-year-old son, who was drowned during a flood recently, George E. Maloney, in company with J. A. Huber, went to the spot indicated in the dream and there found not the boy's body but the skeletons of a man and a woman, buried in the earth on the bank of the stream. Indications were the bones had been there for years.

### MAN BLOWN TO ATOMS IN DU PONT BLAST

WILMINGTON, Del., March 15.—One man was killed when a corning or graining mill in the Hagley yard of the Du Pont powder plant on the Brandywine river near Wilmington, exploded today.

### NAVY DEPT. TO BUILD 4 WARSHIPS ON COST BASIS, IS DECISION

WASHINGTON, Mar. 15.—Dissatisfaction with recent bids offered by American ship builders for naval vessels has virtually caused the Navy Department to decide to construct four of its five new battle cruisers on a cost basis, plus a 10 per cent profit to the private builders.

### L. A. MAYOR AT STATE CAPITAL BATTLES FOR HARBOR LEGISLATION

LOS ANGELES, Mar. 15.—Mayor Frederick T. Woodman is today at Sacramento to work for legislation to make Los Angeles harbor tidelands available for use for industrial purposes by the city. Woodman is certain that the enactment of this bill will soon be followed by establishment of a drydock, shipyard, cotton mill and other plants.

### WALDORF BUILT JUST 24 YEARS AGO TODAY

NEW YORK, March 15.—George C. Boldt was laughed at and called a fool for throwing his money away when he built the Hotel Waldorf "with 400 rooms to cater to the rich," 24 years ago today. Boldt, who was a poor man then, died a few weeks ago leaving a fortune well up into the millions of dollars, all of them made from the hotel.

## WITH MALICE TOWARD NONE

By Henry James

Peace  
I am ashamed of the Americans who think there is no limit to the insults this country should submit to without resenting, and by resenting prove that it is a nation, and not an aggregation of cowardice and ineptitude.

I regard the extreme pacifist as a disgrace and a menace, his activity inspired by the same impulses that inspire treason.

I hope that every legislator who in the present crisis has failed to back the patriotic measures devised to protect his country will be branded as a recreant and dismissed from his place.

The personal pronoun is made prominent in these simple declarations because the sentiments are mine.

Americans desire peace. Peace is the idea of state. If they cannot have it by being forbearing and decent, they can win it sword in hand; and so won, it is far better than the peace that means a kick shall be accepted with a smile. Let's be a nation of men and women or quit.

#### Adorning the Hat

Pig bristles are now used in the ornamenting of hats, and it is said are devised into very fair imitations of the aigrette.

This is far better than killing a mother bird for the sake of procuring the gaud. Bristles as worn by the pig are not beautiful, and the pig excites little sentiment. Besides it would be killed anyhow.

#### Power of the Ballot

It is proposed to vote as to whether this country shall have war.

As this would necessitate all the expense of a regular election it would be well to vote on other things at the same time. For instance, a vote against frost in the citrus belt, cyclones in Kansas, or earthquakes anywhere, would be fully as important.

#### Why

A Judge Rutherford is lecturing on Why Do the Nations War? The value of this theme is that everybody knows as much about it as the judge.

#### Gifts for the Dead

An old man entered a charitable institution in Boston and tendered a check for the benefit of the poor. He explained that once he had been unable, for lack of money, to buy his loved ones presents. When in later

years he had the money the loved ones had passed away. So now he wandered about the shops and when he saw what his mother would have liked or his sisters or his chum, he set the price down, and the total of the items was the sum of his gifts to charity.

It seems to me that is a beautiful idea, and that to love that gentle old man would be very easy.

#### Still Ambitious

Members of the city council of Los Angeles who have been indicted by the grand jury announce that they will be candidates for reelection.

Probably they will have to get along without the votes of the grand jurymen anyhow.

#### Usury

Members of the legislature seem to have difficulty in framing a law close-meshed enough to net the loan shark. If it can't be done why not announce a bounty on the scalp of the beast?

#### Spontaneity

Of course an occasional fire or explosion in a navy yard may be ascribed to spontaneous combustion.

However, were a few miscreants sent to jail after each episode of this kind the spontaneity would be discouraged.

#### The Old Man

Dr. Marsden writes that the man of fifty or sixty ought to be ashamed to say there is no chance for him by reason of his age.

So he ought, and so he is, but not of himself. He is ashamed of the society that denies him the chance.

#### Friend Harry

Harry Thaw is reported as able to undergo trial in New York, but this is beside the point.

The question is whether Harry desires to be tried.

#### Dismissed for Cause

A Los Angeles policeman has been dismissed for stealing the affections of another man's wife.

That was petty larceny. Served him right.

#### High School Attire

Alhambra schools have certain regulations concerning the dress of girls.

Boiled down, these amount to the requirement that every girl be provided with a sensible mother.

## PERKINS BROS. RANCH TRADED

W. W. and C. H. Perkins, brothers, of Santa Ana, have traded a 320-acre ranch at Mercedland for three orange and lemon orchards near Orange. The trade was made with John Kraft. The deal represents \$160,000. The Mercedland ranch is an alfalfa and stock ranch.

## MAN UNDER NEW YORK PLOT INDICTMENT IS KNOWN AT BAY CITY

SAN FRANCISCO, March 15.—H. L. Gupta, indicted in New York for conspiring with Captain von Papen, former German agent, to start a revolt in India, is well known in San Francisco. On the final voyage of the Mongolia to the Orient August 23, 1916, Gupta was a passenger, his ticket having been furnished on order of the Hamburg-American line, which causes the belief that Gupta might have been operating under von Papen at that time. On the trip he left a trunk at Hong Kong and when he claimed it later, it had been opened, probably by British investigators.

## SON OF RICH RANCHER FACES MURDER CHARGE IN GATE CITY JAIL

SAN BERNARDINO Mar. 15.—A charge of murder today was to have been sworn out against Lester W. Cooley, son of E. M. Cooley, prominent Victoria rancher, following the death of Ambrosio Molino, a Mexican, shot in the doorway of a local saloon by the younger Cooley.

Cooley, at the county jail, stated that he shot in self-defense and claims that the Mexican had been following him.

## LAMP IN INCUBATOR EXPLODES, CROWN CITY RESIDENCE IN ASHES

PASADENA, Mar. 15.—As the result of the explosion of a lamp in an incubator causing a fire, the seven-room bungalow of E. W. Snyder, a chicken fancier, today is in ashes.

Several hundred day-old chicks were destroyed along with the building and contents.

## TEACH WOMEN HOW TO WEAR BOUQUETS, AIM OF BIG FLOWER SHOW

ST. LOUIS, March 15.—Today the St. Louis flower show opens at the First Regiment armory. Beautiful girls, garbed in the richest spring gowns, and carrying lavish bouquets, featured the show. Florists said today that many women do not buy flowers because they do not know how to wear them properly. The models were introduced to educate the women in the art of wearing flowers.

## GOVERNMENT OF RUSS DOWNED

(CONTINUED FROM PAGE 1)

state them today as the opinion of high officials. Names of these personages cannot be given for obvious reasons. But the unanimity of their views reflects the attitude of the French government itself.

These officials have not altered in the least their complete confidence in ultimate victory for France and her allies. The French people are prepared cheerfully to endure every sacrifice in achieving this victory. But that cheerful spirit of sacrifice and certainty of belief in the future triumph does not lessen their realization that if America enters the war the victory will come sooner and the period of sacrifice will thus be shortened.

With America aligned with the entente, the issue will be decided, the French believe. The government believes such decision will be the final, overwhelming blow to Germany, both morally and physically.

### BRAND BATTLES TO AVERT FRENCH CABINET FALL

P A R I S, March 15.—Admiral La Caze, minister of marine, today temporarily succeeded Minister of War Lyautey, who resigned today, bringing to a head the cabinet crisis which has been impending for the past few weeks.

Premier Brand was expected to announce a reorganization of the personnel of the ministry today. His friends hoped he would in this way avoid a fall of the entire ministry, which has been forecasted since a reported count early in the week was cited by the opposition as showing Brand could not command a vote of confidence in the Senate and Chamber of Deputies.

Lyautey tendered his resignation at the close of a stormy meeting in the chamber late yesterday. The opposition members refused to permit him to speak in defense of criticism, and he withdrew.

### S. F. MAYOR STRIVING TO BRING SETTLEMENT ON SHIPYARD STRIKE

SAN FRANCISCO, March 15.—Mayor Rolph of San Francisco is meeting with representatives of the shipyard laborers union of Oakland and other labor leaders today in an attempt to bring about a settlement of the strike of shipyard employees which has crippled shipbuilding in Oakland. Timothy Reardon, president of the board of public works, has been acting as mediator.

### MOTION FOR MANDATE TO GIVE APPAM OVER TO BRITISH IS MADE

WASHINGTON, March 15.—Motion for a mandate to turn over the German prize ship Appam to her British owners in accordance with the supreme court decree of March 6 was filed in the supreme court today on behalf of Henry G. Harrison, British master of the Appam, and the British and African steam navigation company, owners.

The motion will be presented in open court Monday.

### PLACE ARMED GUARDS NEAR MYSTERY TRAINS OF POTATOES, ONIONS

VAN NUYS, Mar. 15.—Forty carloads of foodstuffs are on the Encino siding and twenty-five are at the Raymer station, it has been discovered by deputies from the county tax assessor's office.

The foodstuffs consist of potatoes, rice, onions, etc.

Armed guards are stationed about the two trainloads of foodstuffs. Owners of the goods are dodging the assessor, it is supposed.

### FULLERTON H. S. LOSES 1, WINS 1 BALL GAME

FULLERTON, Mar. 15.—One game lost and one won, is the record made during the past few days by the Fullerton high school. The Whittier State School team beat the local high school 6 to 0, here, and Fullerton defeated Covina on the latter's grounds by a score of 2 to 1.

## MAKING FOOD TESTS

Practical Experiments Made  
By Poly High Chemistry  
Students Recently

Interesting practical experiments have been made during the past two weeks by the elementary classes in chemistry of the High School. The students analyzed the various foods on the market for their nutrient constituents, making the various tests for fats, carbohydrates, protein, mineral matter and water. They tabulated the foods according to their value in furnishing the necessary energy, heat, and repair to the body, and learned the practical application and expense necessary for a correctly balanced diet.

The milk of the various dairies in town was tested for the per cent of butter fat and presence of adulterants and preservatives, such as coal tar colors and formaldehyde.

The following results are interesting, four samples being used, and the average noted:

From:	% Fat:
Raitt's Dairy	5.29
Excelior Dairy	4.12
Prospect Dairy	4.12
Dean's Dairy	4.20
Garden Grove (private)	5.95
Santa Ana (private)	6.50
Santa Ana (private)	5.25

The state law requires that milk to be sold must contain not less than 3.25 per cent fat, so all of our milk here stands high relative to fat content. No adulterants or preservatives were found in any of the milk examined.

## Next Philanthropy Lecture

The next lecture of the constructive Philanthropy course will be held on Tuesday evening, March 20, at 7:30 in the intermediate school. Subject, "Poverty and Pauperism; Cause and Remedies," by E. M. Nealey.

The lecture will be a continuation of the previous lecture, with special emphasis on remedies and with consideration of the series as to the causes of poverty, such as the Malthusian doctrine.

As this subject is the crux of the charity problem, it is hoped that there will be a large audience and that all those interested in community social service will make an effort to be present at this number of the free lecture course.

## FOR DISTRICT DEPUTY

Mrs. Ethel Golder of Fullerton,  
Honoree At Dinner Given  
By Mrs. Prather

The pleasant Tustin home of Mrs. George B. Prather was last evening the scene of a six o'clock dinner, in compliment to Mrs. Ethel Golder of Fullerton, the popular district deputy president of the Rebekahs, who paid her official visit to Torosa lodge last evening.

Mrs. Prather had an attractive color motif of pink in her living room, utilizing a profusion of peach blossoms in brown baskets.

In the dining room, a St. Patrick's scheme was apparent. The table was centered with a huge basket filled with green carnations and plumed ferns, the handle looped with fluffy maline. The place cards and favors carried out the motif and the inviting menu was served in four courses.

The guests all attended the Torosa meeting, where Mrs. Golder was presented with a handsome sterling silver pie knife. She was the overnight guest of Mrs. Prather, returning to Fullerton this afternoon.

The dinner guests were Meses. Fannie M. Lacy, past president of the Rebekah Assembly; Miss Hazel Clark, noble grand of Sycamore lodge; Mrs. Irene Mitchell, noble grand of Torosa lodge; Mrs. Tinta Small, chaplain of Orange lodge; Mrs. Bessie Bruns and Mrs. Cora Joyce.

## McMaths Pay Visit

Prof. and Mrs. E. H. McMath were down from Los Angeles yesterday to attend the lyceum concert. Since leaving here, their two little daughters have both been ill, but are now out of danger.

Little Lenna fell at their home and struck her eye on the cement step, later going into convulsions from the high fever occasioned by the blow. The elder daughter, Geneva, has been ill with tonsillitis and the services of a trained nurse were necessary.

## St. Patrick's Dinner

Mr. and Mrs. E. A. Noe of Greenleaf street, were hosts yesterday at noon dinner, honoring the birthdays of Miss Kate Wendelkin and David Meyer, who were given seats at the head of the prettily-appointed board.

Yellow jonquils in a low bowl occupied the place of honor in the center of the table and the place cards were white with the Shamrock leaf and edged in gold. The three-course dinner invitingly served began with St. Patrick's soup and carried out the color motif throughout.

Each honored guest was provided with a birthday cake, with just sixteen twinkling tapers and were presented with carnations and pansies.

The ladies passed the afternoon with needlework and chat.

Those participating were Mr. and Mrs. David Meyer, Mrs. Davelin, Miss Kate Wendelkin, Miss Ella Camp and little James Noe.

St. Patrick's Party at Harper The Ladies' Aid of Harper M. E. church will hold a St. Patrick's dinner and entertainment Friday evening at the church. There will be a good musical and literary program. The menu for the dinner is being kept secret and will be served at 7 o'clock.

## HIGH CLASS CONCERT

Myrna Sharlow, Charming Soprano, With Company  
Here Last Night

The huge audience, which greeted Miss Myrna Sharlow and her company last night at the Grand, in the next to the last number of the lyceum course, more than came up to the promises and expectations of those responsible for her visit here.

Myrna Sharlow is in the flower of youth and beauty, being but twenty-four years of age, but has made an enviable name for herself in the world of grand opera, being a prima donna soprano of the Chicago Grand Opera company.

Miss Sharlow is accompanied by the accomplished violinist Pierre Henrotte, who although he cannot speak English, can make his instrument talk in all languages, and Charles Lurvey, accompanist, who is an artist in his line and has traveled with Madame Nordica.

Earl Fraser furnished his grand piano for the occasion.

Prof. E. H. McMath was here from Los Angeles last evening and made announcements that the Los Angeles Symphony orchestra would give a concert in the Fullerton high school on March 27 and it was hoped that Santa Ana people would co-operate in making the affair a success. The plan is to alternate with Santa Ana in having these programs.

The closing number in the Lyceum course will be given April 3 with Adrian Newsom, story teller and interpretative reader, who comes highly recommended. The scores of people who have attended this course feel well repaid for the outlay and regret that the course is nearing its end. The committee, which has arranged the numbers, deserves great credit for the plans which have been so successfully and pleasantly carried out.

The program last night was given as follows:

- Group of French Songs.
  - a. L'Allee est sans Fin.....Hahn
  - b. Absence.....Berloz
  - c. Bonjour Suzon.....Pessard
  - d. Hymne au Soleil.....Georges
- Violin Numbers.
  - Caprice.....Guiraud
  - Andante-allegro appassionato.....Mr. Henrotte
- Aria. Louise.....Chapartier
- Avia Maria.....Gounod
- Violin Numbers.
  - a. En bateau.....Debussy
  - b. Cradle Song.....Faure
  - c. Tambourin Chinois.....Keisler

- Group of English Songs.
  - a. Aeth Wishes for the Clothes of Heaven.....Fogel
  - b. Slumber Song.....Gretchenhoff
  - c. Deep River.....Burleigh
  - d. Spinning Song.....Reimann
  - e. Summertime.....Ward-Stephens
- Both Miss Sharlow and Mr. Henrotte were gracious with their encores and both were greeted with hearty ovations. Miss Sharlow's encores numbered "The Nightingale Has a Lyre of Gold," a cute little English folk song, "Oh, No, John, No," and "Take Me, Jamie, Dear."

## Spoke Before Association

Prof. A. E. Henning, head of the Manual Arts Department of the Polytechnic High School, spoke before the Manual Arts Association of Southern California, at its meeting last Saturday in Los Angeles. His topic was "Vocational Surveys."

Mr. Henning comes from Indianapolis and is an expert along vocational lines.

## Mrs. Rossiter Hostess

Mrs. V. A. Rossiter, who now resides near Orange, was hostess yesterday to the Orange Bridge Club and several Santa Ana ladies participated in the pleasant afternoon.

An informal luncheon was served at noon and the prizes for the games were won by Mrs. Kellar Watson and Mrs. W. O. Hart and the guest prizes went to Mrs. C. V. Davis and Mrs. A. W. Rutan.

Mrs. Rossiter carried out a St. Patrick's day in green and white.

## President Woman's Club Riverside

Mrs. George Cole, formerly Miss Vera Heatman of this city, has been honored by being made president of the Woman's Club of Riverside, being the youngest woman ever elected to that office.

Mrs. Cole has been leader of the civics section of the club and has done some excellent work along the lines of establishing night schools, holding mass meetings and planting vacant lots.

## Day Nursery Teas

Mrs. E. R. Roehm of 530 South Broadway was one of the genial hostesses yesterday at a Day Nursery Tea. She invited a few more than the seven allotted, having ten to spend a pleasant afternoon with needlework and

Mrs. H. J. Stephens is entertaining today.

Mrs. M. R. Scott had two tables of whist yesterday, the prizes going to Mrs. O. K. Forgy and Mrs. H. T. Duckett. A tempting collation was served, the following being the guests: Meses. J. S. Roberts, R. R. Shafer, O. K. Forgy, J. P. Hazlett, J. F. Parsons, H. T. Duckett, Cal D. Lester and W. F. Lutz.

Mrs. George Spangler was also a hostess yesterday at an informal Kensington, carrying out an attractive color scheme of peach blossoms and blue birds. A two-course collation was served, the guests being the following: Meses. F. O. Daniel, W. K. Brake-man, Margaret Potts, Hamilton, George Briggs, Cood Adams, E. F. Roberts, Flake Smith, Dora Spangler; Mr. Dillehunt of Ophir, Utah.

## YOUNG LADY TRAVELERS

India Was Topic of Well At-  
tended and Pleasant Meet-  
ing At Miller Home

Mrs. Frank Miller was hostess yesterday afternoon to the Young Ladies' Travel Section of the Ebblat at her home on Bush street, the rooms being gay with a profusion of peach blossoms and dainty narcissus.

The topic of the meeting was "India," and Miss Fannie Smart gave a well prepared paper on "The Government of India," and Miss Blanche Tiede on "The Religion of India to the Social Life." Lively discussion followed.

A number of guests were present, including the Ebblat president, Mrs. C. F. Crose, and the curator, Mrs. J. E. Gowen.

Delectable light refreshments, carrying out a St. Patrick motif, were served late in the afternoon.

## C. W. B. M. MEETS

"The Children of Mexico" Is  
Topic At Largely Attend-  
ed Meeting Yesterday

The C. W. B. M. of the Christian church held a very well attended meeting yesterday, Mrs. W. T. Mitchell being the leader. The topic for the afternoon was "The Children of Mexico," and was handled by the reading of two papers by Mrs. Ward Ditchey and Mrs. H. Gerrard. The papers were very interesting and greatly enjoyed.

Mrs. Joel Crites and Mrs. Harry Hayes rendered a very sweet vocal duet, the title being "Does Jesus Care?"

## Epworth League Social

The Epworth League of the Richmond Avenue M. E. church will hold a St. Patrick's social tomorrow, at 7:30 p. m., at the parsonage, 718 South Birch street. There will be a short business meeting to be followed by games and refreshments.

The pastor and his wife extend a cordial invitation to the members of the church to be present.

## AMUSEMENTS

Clune's  
Rupert Julian, who directed the Bluebird to be shown at Clune's Theater tonight under the title of "The Bugler of Algiers," is one of the most prolific and industrious actors-producers on Bluebird's staff of directors. He was first introduced to this popular series as the star of "Naked Hearts," a feature he created from Tennyson's Maud. Then he directed Louise Lovey and Francesca Billington in "Betina Loved a Soldier." He was responsible for "The Evil Women Do," a feature in which Elsie Jane Wilson appeared as Bluebird's only "vampire." And now he has directed "The Bugler of Algiers," most beautiful of all Bluebirds. Besides directing, Mr. Julian acted in all of the productions he has made, and his artistic instinct has always been cleverly expressed whether he was acting or producing.

## AT THE TEMPLE

Tonight will usher in another all new show at this popular theatre, some exceedingly good things being offered. Dorothy Kenyon and Chas. Ray appear in the new Triangle release, "Back of the Man," a thrilling story of Well street. The story recounts the history of a youth of brilliant prospects, who lets his ambition lead his heart astray from the one woman able to guide him to the heights of life. Just when all he has sought in the way of material prosperity seems within his grasp, he comes entangled in a murder mystery. The manner in which he is cleared of this crime, and at the same time has his eyes opened to the real worth of the woman he has neglected, makes the big thrills in a cleverly constructed plot.

The Triangle Comedy Players will also be seen in the one-reel comedy "A Film Exposure," which shows life behind the scenes in a big movie picture plant. All film fans who want to get an idea of how pictures are made, and see the inside life of their favorite screen stars, should avail themselves of this opportunity.

The popular Athlon Stock Company will give a special scenic production of the sensational western melodrama "The Gambler and the Girl," a stirring story of California in the days of '49, during the big gold rush.—Adv.

HUNTINGTON MARSHAL  
UP WITH THE CHICKENS

City Marshal Tinsley of Huntington Beach is some early riser. He was in Santa Ana after a prisoner this morning before 6 o'clock.

Dorman Haywood, a 14-year-old youth of Huntington Beach, yesterday decided that life at home was too tame, and he started out to see some of the world. He left home on his bicycle. Tinsley phoned the local police about 11 o'clock last night of the youth's action and a little later Officer Dean had him in custody. He was sent to the Detention Home. Tinsley was notified.

He came over early this morning to get the boy so that he might start to school this morning.

Haywood was owing George Post of this city on the bicycle and squared the account with the bicycle dealer by leaving the wheel.

IRVINE RANCH FARMER  
HAS BUGGY STOLEN

Auburn Lombard drove into town last evening from his lease on the San Joaquin ranch and left his horse and buggy tied near the Meyer Apartments. He didn't drive the rig home, because the animal either broke loose and ran away or someone stole the harness and buggy.

Lombard found the horse near Tustin on his way home last night, but the buggy and harness were missing. There was no indication that the animal had been running hard, and the presumption is that the harness and buggy were stolen and the horse turned loose by the thief.

MAN BEARING BANNER  
SENDS FREAK WARNING

A man who has gone from town to town bearing a huge banner declaring "This Country is to be Destroyed," has arrived at Orange, and from there he has mailed out numerous letters. The Register received one, both printed and reading as follows: "Warning—This Country is to be Destroyed. Written by the Prophet God's Second Son. He With the Sword and the Golden Crown."

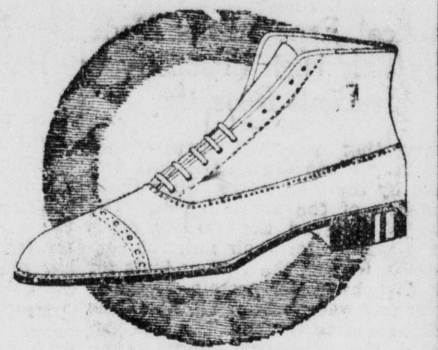

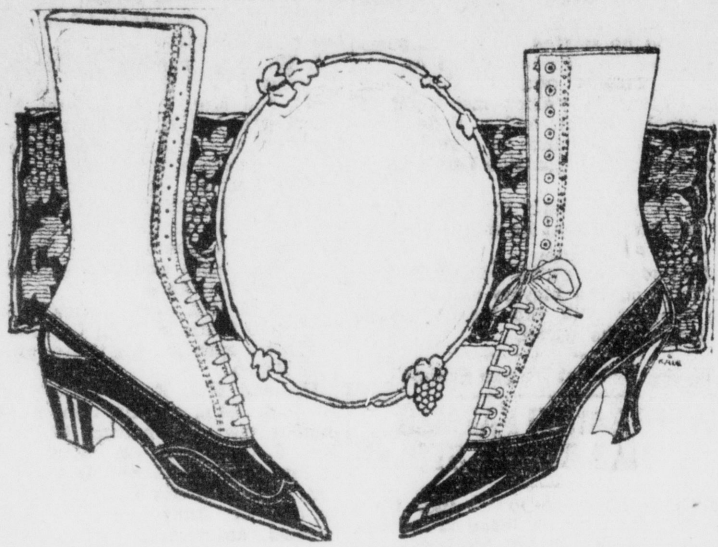

Enjoy your lunch at the Dragon Friday—turkey.

## Orange County Is Gem of Southland

By D. W. McDannald, in the Rural World.

Twenty-eight years ago, by mutual consent of those concerned, a little pocket, known and described on the map as the Santa Ana valley, was carved out of the southeast corner of Los Angeles county and they named the infant Orange.

Some of the wisecracks of the time, peched like a wise old owl on a dead limb, predicted the territory was too small to be self-supporting. To illustrate their inability to penetrate the future, or to guess what the years would bring, the county last year had an assessed valuation of \$8,000,000 and an income directly traceable to the soil of \$40,000,000. That doesn't look much like a "freeze out" game, does it?

One of the great needs of the county is a few more good, thrifty farmers, to bring into a higher state of cultivation some of our undeveloped lands, and some manufacturing industries to put the waste elements into commercial use, millions of cubic feet of natural gas, the cheapest and safest fuel in the world, is allowed to run to waste each year, for the reason there is no present demand for it.

We hope before another calendar is hung on the wall to see long pipelines extending from the oil fields to the factory, and that the sound of the shuttle in the loom will shut out the noise of escaping gas.

Orange county has so many opportunities for the man with a little capital to invest that the task of enumerating them is positively impossible.

We are now producing commercially more than 100 products from the soil, and the surface has scarce been scratched. From a tillable area less than 200 square miles Orange county produced from the soil in 1916 \$20,000,000, and manufactured articles from soil products added \$10,000,000 more. The population of the county is not more than 50,000. This would show an annual income of \$800 for every inhabitant of the county, man, woman and child, and this in a country where many opportunities are undeveloped.

**Diversified Products**  
The man who "tillies the soil with a hoe" in Orange county has steered away from "specializing." He is growing more kinds of fruits and vegetables from more of the kingdoms of earth than any other man under the sun. And he is engaged in the pleasant pastime of "sowing and reaping" more days than are his brother tillers of the soil located elsewhere.

This is March, winter time "back there," and yet they are shipping out from three to five carloads of vegetables fresh dug from the soil every day from Orange county. Bell peppers, green beans, cauliflower and eggplant are great luxuries to the people in Chicago, and while they are shoveling snow off the sidewalks and coal into the furnaces, our farmers are working coastless, in the fields.

**PEPPERS GALORE**  
Between Garden Grove and Anaheim was grown last year 7000 acres of peppers, mostly pimientos. This is said to be nine-tenths of the pepper crop of the United States. A large

portion of the product is handled by three firms in Los Angeles, where it is put up in cans and finds a ready market in population centers of the world. Several men have almost broken into the society of the Vanderbilts and Rockefellers from the earnings of the pepper fields. One man began the industry fifteen years ago with a capital of \$10. Now he is a banker and drives a high-grade automobile.

If you draw a line from Westminster to Anaheim, to Buena Park, to Cypress, and back to the starting point, you will have enclosed what J. V. McConnell, an acknowledged authority on the subject, says is the most ideal poultry section in Uncle Sam's dominion. Mr. McConnell raises fancy fowls and exhibits them at poultry shows anywhere between the two great oceans.

One and a half million dollars annually from the poultry pens of the little county is not a bad record of achievement. When Henry Smelzer gave up his commission business in Kansas City twenty-five years ago to engage in the celery-growing industry, his friends called him crazy and predicted a receivership, but when his estate was settled up a few years ago and it was found the heirs would come into possession of nearly \$1,000,000, some people shifted their opinion.

Celery has been grown successfully for twenty consecutive years on this neat land and it would blast any man's reputation for truth and sobriety if he told his eastern friends the number of bushels of corn and potatoes they grow as a combination crop each year. This neat land will yield 35 tons of sugar beets to the acre and as many sacks of lima beans. Alfalfa grows here without irrigation, and makes from six to eight cuttings a year. These lands sell at from \$400 to \$600 an acre and people who have observed their productiveness will tell you they are a safer investment than government bonds.

**APPLES THRIVE**  
A number of farmers in Orange county have disproved the theory that first-class apples can only be grown in the high altitudes, or where the thermometer hangs around zero at certain times of the year. Out on the Newport mesa, at an elevation of not more than 30 feet, and only two miles from where the tides roll lazily in and out, they are growing several hundred acres of as fine flavored apples as ever ripened in any climate under any sky. Some Los Angeles capitalists have laid out a tract in this same locality and are planting lemons and avocados, with the same confidence of success that others have in planting oranges and walnuts farther inland.

One of the latest fruits introduced in the county is the jujuba, or Chinese date, a fruit held in high esteem by the denizens of the Fowery Kingdom. The tree attains a height of fifty feet and bears an abundant crop of bright red berries about the size of a Cornish grape, has one small seed and has the flavor of the date. The jujuba

paste, so highly prized by connoisseurs, is made from this fruit.

The United States buys from the Italian people annually about \$3,000,000 worth of candied citron. How absurd this oversight, when the fruit will thrive any place a lemon will. The Hebrews use a large quantity of citron in the green state in their religious ceremonies, and there is not enough of the fruit grown here to supply that demand. A few citron trees are growing in Orange county, enough to show the adaptability of our soil and climate to its successful culture, and if our people could be awakened from this apathy and neglect, 3,000,000 bright dollars could be saved from a trip across the sea.

### LOQUAT ORCHARD

Several years ago C. P. Taft, living near Orange, pinned his faith on the loquat and planted a 12-acre orchard. The crop last year, amounting to 100 tons, was sold to a Los Angeles fruit dealer. The grower's interest amounted to about \$5000 and the purchaser took the fruit on the tree. Four hundred dollars an acre for a single crop, and from a tree that requires as little care and attention as the loquat, is not so bad. Millions of people in the United States have never seen, much less eaten, a loquat.

Most people associate the loquat with the little dwarfed specimens first introduced here from Japan, but when compared with Taft's Champion or Advance or with Thale's Champion, they dwindle into insignificance.

Japanese persimmons, when grafted on the root of the wild persimmon found in the Manchurian province of China, can be depended upon to bear regularly and abundant crops for at least 100 years. A great many people have fought shy of the persimmon on account of the difficulty of getting the trees to live after they are planted. With this Manchurian stock the trouble is eliminated. Two or three million dollars' worth of choice persimmons might be sold in our eastern cities.

Some of our improved varieties, like the Hachiya, Tat Nashi or Tamopan, are large and showy and not only look good, but are good. The fruit can not only be eaten in the fresh state, but when dried is equally as rich and tasty as the Deglet Noor date. Sixteen hundred acres orchard is the report of one of our growers, and that is not a bad income.

J. V. Knowlton, living near Fullerton, has started an innovation in the lemon industry. He has a paper-plaid seedling fruit that found its way here from the Canary Islands, and as the fruit contains all the other requisites, it is certain to become immensely popular.

Each of the five big sugar factories in the county are making extensive improvements. A great deal of new machinery is being installed and the coming campaign will be the most important in the history of this great industry. The Anaheim plant will double its capacity, enabling it to slice 1200 tons of beets a day. Contracts have been signed up with the farmers to grow 60,000 acres of beets and most of the seed is already in the ground, and cultivation of the young plants will soon begin. Weather conditions have so far been exceptionally favorable for germination of the seed, and both factorymen and farmers are jubilant with anticipation for a big harvest.

Forty thousand acres are devoted to

bean culture in the county and the \$2,000,000 coming from this crop adds much to home life conditions, and the automobile dealer smiles when the bean harvest begins.

The 200 miles of perfect roads in the county and 600 miles more that are kept in repair by a liberal application of oil and sand makes Orange county a motorman's paradise from January to January.

With the building of a good road down the coast from Seal Beach to Capistrano will open up an auto trip of scenic beauty unsurpassed in any land, and thousands of tourists will journey across the continent to enjoy the picturesque scenery. The stranger will be enthralled by the rustic beauty of the long reefs and overhanging arches, where giant boulders rise like silent sentinels from the seething surf—sheer and rugged—near a thousand feet.

At the conjunction of the coast boulevard with the state highway, near the old churchyard, where youth and age and poverty and pride sleep side by side, stands the last living link, binding the centuries of the long ago with the glowing realities of the present. Here, among the beautiful settings of the surrounding hills and canopied under the bluest of blue skies, stands the remnant of the old San Juan Capistrano mission, the most imposing and the richest of all the missions in the chain. At one time in the zenith of Capistrano's glory the names of 5000 neophytes were enrolled on its roster. Thousands of strangers journey here to view the decaying walls—and meditate on the afterglow of the missions.

**ORANGE FRUIT EXCHANGE**  
The Orange County Fruit Exchange, representing 80 per cent of the growers of the county, next year expects to join in the state-wide campaign which will be waged for a state law fixing the maturity test for oranges. This

## EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur

—When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, thorough, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

law, it is urged, should provide for a strict regulation of orange shipments as the standardization law, which went into effect this year, provides for the regulation of cantaloupe shipments. It should be a state law rather than an ordinance passed by the various citrus producing counties, for serious flaws have been found in the plan for county regulation. Chief of these is that a county ordinance would not affect fruit packed within an incorporated city.

### WALNUT GROWING

The English walnut has found such congenial conditions in the cool, moist climate of Orange county that we are producing annually one and a half million dollars' worth of the whole-some nuts. E. G. Ware of Garden Grove and J. B. Neff of Anaheim have each propagated a new variety of walnut, almost phenomenal in their bearing capacity.

Within the last few years the walnut industry has been enhanced nearly a hundred fold by the introduction of new varieties and new methods of cultivation. A splendid marketing organization has freed the grower from the greed of the commission man and by locating him as independent as the man engaged in any other line of human endeavor.

### VALENCIA ORANGES

Because Orange county grows the great bulk of the Valencia orange crop of the world, many people think it originated here, but that is a mistake. The Valencia came from the district in Spain bearing its name. C. C. Chapman's Mission brand of Valencia, grown near Placentia, have sold in eastern markets for \$12 a box in carloads. Valencia seldom sell for less than \$2.50 a box.

### OIL CLOTH FACTORY

Orange county can boast of having the only oilcloth factory west of the Mississippi river. It is located at Huntington Beach and was financed by local capital. The plant is being operated overtime to fill orders. Just now the company needs more money to install more machinery to make more cloth for a trade that has already gone far beyond its capacity.

### OFFER NEW PRIZE

MINERAL WELLS, Tex., Mar. 15.—As an extra inducement to Sergeant Smiley, White Sox military instructor, President Comiskey and President Al Toney of the Three I League have offered him \$200 if the Sox win the \$500 Ban Johnson prize as the best military club in the circuit.

### OAKS BEAT CUBS

OAKLAND, Mar. 15.—Seven runs in the last half of the seventh and the Oaks started the Cubs' invasion with a defeat, 7 to 2. Reuther, rookie pitcher, was the victim. The Cubs and Oaks play here again today.

## DRILLERS NURSE PAINFUL HURTS

ANAHEIM, Mar. 15.—Suffering from two fractures near the ankle of one of his legs, W. J. Robinson of Brea today is at the Anaheim Sanatorium. Robinson was injured when a cable on a rig of the Union Oil lease, Brea, slackened suddenly and caught his foot, causing the fractures.

Achie Stickney, a machinist working for the Union Tool Company, Brea, is nursing a painful injury he sustained on his hand. He was at work on a drill press. His hand was caught between the drill and the material he was working on. The drill had gone almost completely through his hand when something went wrong with the machine and the drill stopped.

## ASSEMBLY O. K.'S 150 BILLS, TURNS DOWN 4

SACRAMENTO, Cal., Mar. 15.—The assembly has passed 150 bills and has turned down four. The senate has passed nearly 100 measures and has rejected five.

## KING ALFONSO'S GEMS IN TAPESTRY IN LOAN EXHIBITION

NEW YORK, Mar. 9.—A royal collection of tapestries has been placed on exhibition in the Hispanic Museum.

King Alfonso of Spain lent them to the Hispanic Society of America, and they were brought here by the Marquis of Valverde. It was largely through the efforts of Archer M. Huntington, who takes an intense interest in Spanish art, that the king's treasures were obtained from the royal palace of the Prado.

Many of them were designed by Goya and reflect the great painter's multitudinous outlook on the colorful Spanish life of his day. Others represent scenes from "Don Quixote," after cartoons by Procacci. These are in the Flemish style, the most of them are woven by Jacob Vander-goten.

Some of the Don Quixote scenes are "The Adventure of the Windmills," "Sancho is Tossed in a Blanket," "The Adventure with the Biscayans," "Don Quixote Is Knighted" and "Don Quixote Is Caged and Carried Home." One of the Goya examples is described as follows: "Tapestry after Goya cartoon. 'The Picnic,' the first cartoon ever painted by Goya for the Royal Manufacturers of Tapestries in 1776, for the Prince of Asturias' dining room at El Pardo palace. A copy was presented to King Leopold of Belgium by Queen Isabella II."

### SEALS OFF FOR S. F.

SACRAMENTO, Mar. 15.—Part of the Seal squad left for San Francisco today and will practise at Ewing field this afternoon.

## HOLD INQUESTS OVER BODIES OF TWO SLAIN BY TRAIN AT FONTANA

SAN BERNARDINO, Mar. 15.—Inquests were to be held here today over the bodies of H. R. Robertson, 50, feed merchant, and H. B. Thomas, 45, road contractor, both of Alto, who were killed when an automobile in which they were riding was wrecked by a San Bernardino Pacific Electric train at the Locust-street crossing in Fontana.

The automobile, it is stated, stalled on the track and the motorman was unable to bring his car to a stop in time to avert the collision.

## WHITTIER'S COFFERS \$75 RICHER AS WOMAN BOOTLEGGERS PAYS UP

WHITTIER, Mar. 15.—The coffers of this city today are \$75 richer. This sum was paid over to Judge Taylor by Mrs. Jesus Castello, who has the distinction of being the first woman in America to be convicted of bootlegging by a jury made up entirely of women.

## EXPERT TALKS TO HIGH SCHOOL STUDENTS

Eugene H. Grubb this afternoon delivered a lecture to the students of the high school on the subject of "Farming as a Vocation." The address was under the auspices of the Register, and was given because of the necessity of postponing the potato demonstration because of the fear that rain would interfere.

## PITTSBURG PRESS MAN TO HEAR JAP ENVOY

PITTSBURG, March 15.—Ambassador Sato arrived here from Washington today to attend the banquet of the Pittsburg Press Club, at which he will be the guest of honor. Whether the Japanese diplomat will touch upon Japanese-American relations is not known.

Sir Gilbert Parker, the Canadian novelist, Roy W. Howard, president of the United Press, and Senator Warren Harding have accepted invitations to deliver after-dinner speeches. About 650 are expected to attend the dinner.

### LITTLE GIRL HAD CROUP

Every mother knows and fears croup. Mrs. R. M. Raney, R. F. D. 2, Stanford, Ky., writes: "My little girl had been having croup every few nights. I began to give her a few drops of Foley's Honey and Tar Compound every two or three hours, and that night she slept well, never coughed any, and the next day her cold was gone. To all my friends I am saying, 'Get a bottle of Foley's Honey and Tar for a gripper, coughs, colds and croup. A genuine cure.'" Rowley Drug Co.

### FETS REPORT ORDERS

OAKLAND, Mar. 15.—Warren Adams has received orders to report at once to the Pittsburg training camp and the Oaks' chances of grabbing this promising first-sacker have gone flimmering.

*"Trade at Home"*

# Try Santa Ana Stores First

*You owe it to your local merchants to give them a chance at supplying your every need--any article not found in stock will be secured for you promptly*

## Save Time and Money By Buying at Home

The season of heavy Spring buying is at hand. The head of the household is ready for the Spring and Summer outfitting. Every member of the household requires something. Perhaps the wife or daughter need new gowns, new wraps, new shoes or other necessities. Even father himself requires a new suit, or other wearing apparel. The home has many needs. The floor coverings may be worn and shabby. Bedding has been so long in service that it needs replacing with new. The entire house and household needs a general toning up.

In any case there is much to be bought in one line or another, and more money is spent at this season than during any other period of the year.

Maybe you are thinking of making a trip to one of the larger cities for a day's shopping. Maybe you have been lured by unscrupulous advertising or "something for nothing" promises into thinking that

you can save a considerable sum of money by such a trip instead of patronizing home merchants.

**DON'T BELIEVE IT.**

Maybe you are a victim of the worse evil—the mail order house—and tempted by their extravagant offers to buy and pay for goods without seeing them and learn too late that a good part of the catalogue language is pure fiction, and then regret the remainder of the season that you are obliged to put up with things that do not suit you.

**DON'T BE FOOLISH.**

AT LEAST OBSERVE THESE "DON'TS" UNTIL YOU HAVE GIVEN THE HOME MERCHANT A CHANCE. SEE WHAT THE BIG AND UP-TO-DATE HOME STORES HAVE TO OFFER YOU AND LEARN THE PRICES THEY WILL QUOTE.

*Try the home merchants first and thereby help yourself, your home town and those who play an important part in maintaining your town, your schools, your churches, etc.--The home merchant.*

## Don't be Deceived by the Alluring Advertisements Sent Out by Merchants of the Larger Cities

You may get the idea that city merchants are fairly giving away their goods, but investigation invariably proves that the buyer meets with disappointments, either in the inferior quality of the article or the price. Your home merchant dares not take advantage of his customers even if he is inclined to do so. He knows that he must make good or lose your patronage. He wants your trade to be continuous and treats you accordingly.

SANTA ANA, CALIFORNIA, THURSDAY EVENING, MARCH 15, 1917.

## 'DOPISTS' UP IN AIR OVER BIG COUNTY MEET

Interest is remaining high these days out on the Polytechnic track oval. Each succeeding day finds the "dopists" more than ever in the air as to who is due to clean up the affair Saturday and annex the Smith three-time cup. Santa Ana chances, which went higher than a kite yesterday, today took more of a normal aspect, with the announcement that Gulley and Trotter would very likely be eligible to participate. However, it looks as though Nieblas, the gritty little Mexican distance star, is out of luck.

Coach Culp, Fullerton's track Napoleon, the same man that engineered his football team into the semi-finals for the Southern California championship, brought over a great many of his cinder-path stars last night to give the Santa Ana track the once over. Johnson, Smith, Sullivan, Hale and several others of the oil diggers' aggregation donned spikes and worked out on the local track. Last night several of the Orange team were over to try their skill on the county seat's paths.

Indications point to the fact that the track will be in the best of condition Saturday. Under the guidance of Joe Irvine, commissioner of athletics; Hugh Osborn, track manager, and Coach Hall, the track is being widened and worked over in general. The oval is naturally a fast track and with some combing over between now and St. Patrick's afternoon, several fast marks are expected to be rung up. Everett, the Orange quarter-mile demon, is rather expected to lower the county record in this event. Everett placed in both the All-Southern and the All-State meet last season and should find no difficulty in cleaning up Saturday in record time.

The two-twenty mark is another that may be tipped. With such men as Raney, Rozell and Smith running, there ought to be some mighty fast time recorded.

McCoy of Orange is a wonder in the distances but he is not expected to touch the marks held by Beebe, the ex-Anaheim crack. At that, he ought to ring up some mighty fast time in both the half and the mile.

Coach Smith's baseball cohorts get an off-day Saturday. Some of them, including George Morrison, will try their hand at the track game. For a time it looked as though a trip to San Diego might be scheduled for Saturday but this was later cancelled. The next combat for the ball men takes place on the 24th, with San Pedro engaging the locals here.

Enjoy your lunch at the Dragon Friday—turkey.

## SEEK CLEWS IN \$500 ANAHEIM JEWEL THEFT

ANAHEIM, Mar. 15.—Police here today are on the lookout for the burglar, or burglars, who entered the home of James Owens, on North Lemon street, while the family was absent and looted the residence of jewelry valued at more than \$500.

Returning, the family found the house in a turmoil. Among the most valuable articles taken by the thieves was a Swiss watch, valued as a keepsake as well as for its intrinsic worth. Lavallieres, rings, pins and other gems were purloined.

The police so far have not succeeded in getting trace of the robbers.

## ANAHEIM VISIT MADE BY RY. BOARD MEMBERS BRINGS MERGER TALK

ANAHEIM, Mar. 15.—The possibility of the two local telephone systems being merged is being discussed here today following a visit made to this city by representatives of the State Railway Commission, who went through the local plants with a view to getting a detailed valuation of the properties of the companies here.

The commissioners did not give out any information, and whether the work done by them here is in the line of preparation for legislation looking toward the consolidation of the two telephone companies is not known.

ORANGE, Mar. 15.—Critically ill from an attack of pneumonia and heart trouble, Captain John Dillon, formerly of this city, is not expected to recover, according to work received here from Richard, Keokuk county, Iowa, where his home now is. Captain Dillon, who is close to 90 years of age, has many friends here who are grieved to hear of his illness.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

## DIERKER SELLS GARAGE AT ORANGE

H. E. Dierker, Studebaker dealer at Orange, has sold his garage business there to C. H. Vickery of Los Angeles.

Dierker started the business there four years ago and has built up a splendid patronage.

The Studebaker dealer was leading man in "Opportunity," the film produced by the Continental Film Company at Orange, as the vehicle for carrying many of the most beautiful scenes in Orange county. He is not yet decided as to whether he will attempt to break into filmdom as a star, become a bond buyer in Los Angeles or invest his thousands in a Valencia grove in the vicinity of Orange.

## KILL ANTI-TRADING STAMP BILL, FLOOD OF MAIL URGES SOLONS

SACRAMENTO, Mar. 15.—The legislators are getting more mail on the anti-trading and anti-trading stamp bills than on any other proposed laws. Thousands of post-cards, letters and telegrams are pouring into the capitol urging the lawmakers to vote down the Chandler bill which would license trading stamps out of existence. And this mass of mail may bring results.

For instance, Senator Struckmeyer of San Joaquin county, says: "I am practically pledged to vote for the Chandler anti-trading stamp bill, and I had been given to understand that most of the Stockton merchants and most of the consumers were in favor of it. But I am being fairly swamped with letters, telegrams and petitions from Stockton consumers and retail stores urging me to vote against the bill. I have received more than 600 cards, each signed by a Stockton consumer, urging me to vote against the bill, sixteen telegrams and as many letters from retail storekeepers, and only five letters in favor of the bill. Now I don't want to vote for this bill down the throats of my constituents."

## STOP ENTERTAINING, WAY TO BEAT H. C. L. ASSERTS L. A. WOMAN

LOS ANGELES, Mar. 15.—And here's another way to beat the high cost of living: "Stop entertaining," says a well-known Los Angeles matron, who was formerly widely known for her hospitality and frequent entertainments. "We used to have dozens of callers every week. Card parties or musicals were nightly events. We enjoyed it immensely, except around the first of the month when the bills came in. Now we've stopped. We don't entertain, and we don't go out ourselves. My husband and I go to a picture show a few times weekly, and to church Sunday night. We get more real pleasure out of each other's company than we thought possible. We are saving money, too."

## BEACH MAN LOW SCORE WINNER IN GOLF PLAY

Sending a golf ball around the course of the Los Angeles Country Club yesterday in 78 strokes gross, Lee Collins of Balboa sent Lawrence Cowing, the state champion, into second place and won the high prize in the invitation tourney staged yesterday. Collins also had the low net with a 4, but could not take two prizes.

Cowing, George Cline and W. R. Miller tied for second low gross score.

Three other members of the Orange County Country Club participated. R. E. Reid made a net of 91, A. C. Twist 77, and F. B. Browning 85.

The first round matches of the tournament took place today. Local stickers in the pairings are as follows: Lee Collins and C. Gartz; A. C. Twist and Thomas McCall; Dr. Holladay and F. B. Browning; R. E. Reid and L. Darsie.

## STIMULATING MEETING HELD BY EFFICIENCY CLUB OF GAS COMPANY

The Efficiency Club, an organization composed of the Orange county employees of the Southern Counties Gas Company, held its regular monthly meeting last evening at the Fullerton office of the company. The spirit of co-operation between the various departments was predominant throughout. That every employee of the company desires to increase the efficiency of the service was manifest by the earnest manner in which the different subjects were discussed.

The local contingent assembled at the office, 501 North Sycamore street, from where they were transported in automobiles to Fullerton.

The principal speakers were W. Jones, E. L. Peacock, J. C. Page and J. C. Hayden.

The meeting was followed by a luncheon served to thirty-eight of the members at the Hotel Shay.

An entertainment consisting of several musical numbers and a reading by Miss Mary B. Carr completed one of the most enthusiastic meetings of the organization.

## SPANISH AMBASSADOR SEVERELY CRITICISED

BUENOS AIRES, Feb. 25 (by mail).—Ambassador Soler y Guardiola of Spain has been under violent attack by a section of the Argentine press today because of his message to the Madrid government advising that emigration to the republic be discouraged for the present. The ambassador says he thinks he was doing right by his own countrymen to warn them of existing hard times here. La Nacion defends him, agreeing that Argentina is not in a position to take care of immigration just now.

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Is Sign You Have Been Eating Too Much Meat

—When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and "loggy." When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Advertisement.

GARDEN GROVE

EMERSON BUYS 2-STORY HOUSE AND 5 ACRES

GARDEN GROVE, Mar. 14.—C. A. Emerson has purchased the M. L. Keeler property consisting of the fine two-story house and five acres of ground and will take possession about April 1. Emerson will rent his home an Acacia with the acre or will rent them separately. Keeler will move his family to Santa Ana where his mother resides.

John Jentges and family motored to Seal Beach and Westminster Sunday. Jentges joined the baseball game at Westminster, but says he does not feel as well after a game as he did twenty years ago.

GARDEN GROVE, Mar. 14.—Rev. and Mrs. Reinus went to Rialto Friday to attend the golden wedding anniversary of Mr. and Mrs. W. W. Dolgelsch, former parisheners, Rev. Reinus having been pastor of the M. E. church at Rialto for four years. The sons and daughters of Mr. and Mrs. Dolgelsch from Kansas and Nebraska came out to attend the anniversary, it being a most enjoyable reunion—a veritable love feast.

The son of Mr. and Mrs. M. Robinson, north of town, has had a very serious attack of pneumonia, but the crisis is now passed.

Rev. and Mrs. Reinus and Mrs. G. R. Reyburn attended the Home Mission District rally in Anaheim Friday.

The Epworth League had an entertainment in the league room Friday evening. There was a large attendance and all enjoyed the evening.

WINTERSBURG

WINTERSBURG IS PROUD OF NEW BOULEVARD

WINTERSBURG, March 14.—The new road which has been in process of construction since the first of the year is now completed, and adds another link to the chain of good roads in Orange county. The road extends from the end of the main street boulevard west to the Springdale school, a distance of one mile, and is paved with crushed rock and a top surface of fine granite. Paving the old road was begun the last week in December, and the first material was hauled on January 12.

The unusually heavy rains this season made progress slow at times, and prolonged the work beyond what was anticipated in the beginning. But all are proud to have a road that, during the rainy season has been impassable, changed to a good, solid one, and no complaints are heard as to the time it required nor the money it cost.

The material, furnished by the county, was brought from the San Dimas quarries over the S. P. There were 24 cars of crushed rock used, costing 75 cents a ton delivered in Wintersburg; 27 cars of the fine granite, costing 62½ cents a ton. This made an average of about \$35 a carload, as the granite was by far the heavier. The cost of unloading was \$180 and for hauling \$674. This total of \$854 was covered by subscriptions from the farmers of the Springdale district, aided by generous donations from interested corporations.

George Gothard had charge of the unloading, hauling, keeping the time of workmen, etc., and Earl Farrar secured the funds to pay for the same. Two carloads of crushed granite were spread on the road west of the Springdale school house, as an experiment, to determine its value as a road bed without the rock foundation.

Mr. and Mrs. S. W. Woods of Seattle, is spending the week with her sister, Mrs. H. A. Lake. Mrs. Woods leaves Friday for a visit through Iowa and Nebraska.

Robert Humphries has been on the sick list but is much improved.

ORANGE CHOIR GIVES CANTATA ON FRIDAY

GARDEN GROVE, Mar. 14.—The Orange choir will give a cantata Friday evening at the M. E. church.

This is a reward of merit to the Sunday school class of Frank Anderson for being the first to reach Cheyenne, Wyo., in the "transcontinental motor trip from Garden Grove to New York," which is creating much interest and enthusiasm in the M. E. Sunday school. The entertainment is free and every one is being cordially invited.

ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapiesin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes

—You don't know what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapiesin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapiesin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.—Advertisement.

PLEASANT SURPRISE IS GIVEN BY HER FRIENDS

TALBERT, March 14.—On Friday evening last, a most delightful surprise was given Mrs. George Mander-sch by a number of her friends. The party was given in honor of her birthday anniversary and proved a most pleasant event, as the "surprise" was a complete one, and the evening passed most pleasantly. Delicious refreshments were served during the evening by the guests who, before their departure, showered Mrs. Mander-sch with many lovely gifts, accompanied by congratulations and many good wishes for the future.

BEET GROWERS HARD AT WORK

Ranches in Every Stage From Thinning to the Starting of the Plow

TALBERT, March 14.—All kinds of work pertaining to sugar beet raising is now going on in this vicinity. Thinning has begun in some of the fields. Other fields are being cultivated, while in still others planting and replanting continues, and many acres are now being prepared for planting, while some have not even been plowed. I. M. Von Schiltz is using his baby caterpillar for beet planting this season. He attaches four planters, chained together, to it and in this way is doing some rapid planting. About 100 acres of the 899 or 900 he will plant is now in.

Some damage was done the beet crops by the heavy winds this past week and the cold weather has greatly retarded the growth of the plants.

Mr. and Mrs. Sam Talbert spent Sunday at Long Beach, visiting Talbert's father, who has been very ill. His condition is greatly improved and he is able to be about some now.

Mr. and Mrs. Jess Davis visited Mr. and Mrs. Bliss at Westminster Sunday.

George Bryan was able to walk a little Monday, for the first time since his foot was badly injured last Sunday, week ago, when it caught in the fly wheel of a caterpillar engine.

Mr. and Mrs. Chas. Ward visited Sunday at Tustin with Mrs. Eggert. In the afternoon all motored to the Orange County Park.

Fritz Thompson left Wednesday for Parris to visit Ray McCarty.

Mrs. F. D. Plavan and daughter, Miss Alma Plavan, went to Los Angeles Thursday, where they were guests at the Mansky home. They returned home Saturday.

Miss Clara Hauptmann of Olive, was a weekend visitor at the home of Mr. and Mrs. Leo Borchard.

U. H. Plavan purchased a light Buick "6" through the Santa Ana agency last Wednesday.

F. D. Plavan attended the Y. M. C. A. banquet in Los Angeles Saturday evening.

Miss Jessie Courreges and sister of Los Angeles were weekend visitors at the home of their parents, Mr. and Mrs. R. Courreges.

Mrs. Arnold Walker and little daughter, Bernice and Elinore, and Mrs. Walker's mother, Mrs. C. C. Heckock, who have been on a visit here, went to Compton Thursday. While there they were the guests of Mr. and Mrs. Morton. Arnold Walker joined them Saturday night and he and Mrs. Walker and the children returned home Sunday. Mrs. Heckock remained and expects to leave in two weeks for her home at Elizabeth Lake.

Mrs. A. F. Swift spent Tuesday night of last week with her son, Claud Swift, at Huntington Beach. In the evening she attended the anniversary meeting of the Rebekah lodge, which was participated in by members from the lodges of the county. The president of the assembly and many other high officers were present making the evening one of unusual interest.

The little five-months-old daughter of Mr. and Mrs. Will Jones has been very ill the past week, but is now improving, and the attending physician thinks she is out of danger.

Mr. and Mrs. Robert Wardlow and family visited Sunday at A. F. Swift's home.

Mary and Clarice Isnor are both sick with the measles.

Mrs. Geo. Bradley has as her guest this week her mother, Mrs. L. M. Ford of Tustin.

Mrs. Florence Dunn left last Thursday for her home in Arizona, after a week's visit with Mrs. Joe Parsons.

Guests entertained last Friday at the Chas. Ward home were: Mr. Ward's mother, Mrs. S. Ward; sister, Mrs. Moody, and brother and wife, Mr. and Mrs. N. Ward. All are of Compton.

Chas. E. Borchard returned last Saturday from a week's business trip to Madera.

A stag party and smoker was given at the home of Jess Clark last Thursday evening. The time was passed with cards and refreshments were enjoyed at a late hour. Those present, besides the host, were John Courreges, Harvey Walker, Will Isnor and Mr. DeLong.

TWO BUNGALOWS TO BE FINISHED SOON

TALBERT, March 14.—The two new bungalows to be built by Geo. Pickering of Santa Ana, for Chas. Ward and Emil Seervain are now under way. The cement foundation of the Ward house was finished the last of the week and while waiting for it to get in proper condition the foundation for the Seervain house is being laid. These new houses, that of Mr. Ward a six room modern bungalow, and Seervain's a seven room, are located side by side and will prove a great addition to the locality in which they are situated. The erection of the frame work for both buildings will be begun by Wednesday of this week.

HOTELS FOR HEALTH OR PLEASURE RESORTS

LOST — RHEUMATISM AND STOMACH TROUBLES. FOUND—HEALTH AND HAPPINESS AT MURIETTA HOT SPRINGS, MURIETTA, CAL. America's finest Sulphur and Mud Baths and Swimming Pool. Booklet at information bureau, or by writing, Fritz Guenther, Prop. H. Guenther, Manager.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive, white powder and almost tasteless.

RUB YOUR EYES

and get a clear vision of the possibilities of Fruit and Nut growing without irrigation in the Templeton-Paso Robles district—a swell place for a home—money making opportunities undreamed of a few years back, a combination of desirable conditions possessed by no other locality in the state, these are reasons why so many men from Orange county and other Southern California points are investing there.

10 acre lots, best orchard zone, near town, fine soil for almonds, walnuts, pears or prunes—all money makers—\$90.00 to \$175.00 per acre.

10 acre lots, young orchards just coming into bearing, \$300.00 to \$400.00 per acre.

Here are two good ones, combinations suitable for dairying, hog raising and fruit growing, ¼ mile from high school.

30 acres, ¼ in alfalfa, ¼ in fine pear, prune or walnut land, \$200.00 per acre.

43 acres adjoining and fit the same combination and price, the alfalfa land owns electric pumping plant and modern cement pipe line system.

### CANNERY PLANS BEING BOOSTED AT FULLERTON

FULLERTON, Mar. 15.—Boosters of this city today are looking forward to a meeting that is to be held Saturday when a representative of a San Pedro concern which proposes to establish a cannery here will meet with the board of directors of the Board of Trade and go further into details of the plan.

No stock selling scheme will be connected with the project, it has been known.

Should the cannery locate here, the plant probably will put up tomatoes exclusively, according to E. K. Benchley, who stated that he had been told by one of the men backing the venture that the plan is to erect a cannery building of about 50 by 75 feet, with a warehouse in connection.

The Board of Trade has endorsed the project and will do all it can to encourage it.

### NEWS NOTES FROM WESTMINSTER

#### MISSIONARIES FROM AFRICA ON VISIT

WESTMINSTER, March 15.—Mr. and Mrs. Rossier Campbell, returned missionaries from Basutoland, South Africa, spent a few days last week visiting Mr. and Mrs. F. A. Rich and Mr. and Mrs. L. E. Rich.

They are long-time friends, both in Kansas and Arizona. Mr. and Mrs. Campbell have been doing missionary work in South Africa for nine years, and expect to return in another year.

#### Notes

The spelling match Friday evening resulted in the sixth and seventh grades being spelled down by equal numbers chosen from the audience.

The eighth grade being extra good spellers won the match. One more was spelled down from the side of the audience than from the grades, though it was decided afterward that one of the former spelled the word correctly.

After the spelling Prof. Hosack exhibited with stereopticon a fine collection of pictures taken in Germany.

Mrs. W. J. Edwards and Mrs. Phil McClintock went to Anaheim Sunday afternoon and made the acquaintance of Miss Lela Mildred, daughter of Mrs. Hazel Fisher, who arrived Saturday and weighs six pounds. Mrs. Fisher was born in Westminster and resided here for a number of years, being known as Miss Hazel Cook.

Mrs. J. Stover returned to Long Beach Sunday after spending a few days at their ranch here.

John McBride is having his place plowed.

The dredger has turned the corner and is going north past the Hickey place.

Mr. and Mrs. George Francis and Miss Mary Francis started Tuesday afternoon for Cowles, Nebraska, to be gone several months. A letter was received last week from Mrs. Francis' brother, calling them to the bedside of their father, George Bitler, who is not expected to live. Mr. Bitler is 87 years of age.

A number of friends and neighbors gathered on Monday evening to give the Francis family a farewell surprise and wish them a safe journey.

Mrs. Arthur Kerfoot gave a party Saturday afternoon to celebrate the birthday of Miss Lyla Toogood. The afternoon was pleasantly passed with games and refreshments of cake, jello and candy were served. Those present were Misses Knoll, Marguerite Wright, Adele Johnston, Lyla Toogood, Maude Gibbons, Isabelle Chandler. Several were prevented from coming by the cold wind.

Mr. and Mrs. Herbert Moss of McKittrick visited relatives and friends in this vicinity from Friday till Monday. They were former residents of this place. Mr. Moss has charge of five oil drillers at McKittrick.

Mrs. Mary Carlyle and little daughter Virginia, who have been visiting relatives in Pennsylvania, Missouri and Indiana, the past nine months, arrived in Santa Ana the first of the week.

Judge Thomas of Santa Ana, will show his Hawaiian pictures in the I. O. O. F. hall next Friday evening for the benefit of the public library. A small admission will be charged. Also the ladies will have coffee and cake on sale.

Mrs. F. R. Hazard and daughter, Miss Lucille, spent Saturday with Mrs. B. A. Hazard.

Mr. Smithling returned Sunday from the M. E. hospital, Los Angeles, where he has been for three weeks. He is feeling much improved.

Mr. Kruger went to Los Angeles Friday to attend the funeral of a friend and returned Monday.

Mexicans have commenced thinning beets for W. J. Edwards this week.

Rev. Geo. A. Francis, pastor of the Baptist church at Garden Grove, preached a splendid sermon in the Presbyterian church Sunday morning.

Mrs. C. Nankervis, Tom Nankervis, Mr. and Mrs. J. B. Nankervis and family spent Sunday in Los Angeles visiting at the home of Richard Nankervis.

Mrs. Dickey spent Tuesday in Los Angeles.

#### MERRY SURPRISE COMPLETE SUCCESS

WESTMINSTER, March 15.—A number of the friends and members of the Happy Workers treated Mrs. O. B. Byram to a pleasant surprise on Saturday afternoon in celebration of her birthday which occurred a few days before. It was also the eighth anniversary of the marriage of Mr. and Mrs. H. Hansen, a near neighbor, and one who helped plan the happy occasion.

It was arranged beforehand that Mrs. Weinschenk and daughter, Miss Fay Weinschenk, should come early, ostensibly to practice some music. After the girls had played for a time, Mrs. Byram was asked to play accompaniments to Miss Fay's mandolin, in order to take her attention from the arrival of the guests, who came in a body, having met by agreement at Mrs. Hansen's.

They gathered in another room, bringing with them refreshments of delicious ice cream and cakes, beside flowers and a number of dainty gifts, and came in where the music was going on, making the affair a complete success.

Owing to the music Mrs. Byram was not aware of their arrival. One feature of the occasion was a beautiful pink and white birthday cake brought by Mrs. Dickey, which was well covered with candles.

The time was spent in conversation and fancy work. Those present, besides the members of the family, were Mrs. J. P. Weinschenk, Mrs. E. S. Reed, Mrs. Eva Dickey, Mrs. J. F. Patterson, Mrs. L. E. Rich, Mrs. W. J. Edwards, Mrs. F. J. Grandy, Mrs. H. B. Anderson, Mrs. H. Hansen, Miss Katherine Johnson, Miss Mamie Jenkins, Miss Lela Rich, and Miss Fay Weinschenk.

U. S. MAIL TO GO TO PITCAIRN ISLANDS

NEW YORK, March 15.—For the first time since its colonization in 1798 by mutineers and Tahitian women, Pitcairn Island, that geographical period of the Pacific ocean between Panama and New Zealand, where steamers stop sometimes as often as once a year, will receive mail service from the United States via the steamship Australplains, sailing from this port today.

Probably the only person in the United States to whom this news is valuable is Miss Emily McCoy, who left Pitcairn fifteen years ago to come to the United States to study nursing. There are about 150 inhabitants on the island, Miss McCoy says, and equal suffrage are unknown, among the islanders.

### RIB FRACTURED AS RESULT OF HORSE KICK

WESTMINSTER, Mar. 15.—On Friday, as W. B. McCoy was bridling one of four horses attached to a chain, the horse pulled the chain taut so that one of the other horses turned, kicked Mr. McCoy in the stomach and broke one rib. It is thought he did not receive the full force of the blow but it was sufficient to throw him backward and knocking the breath completely out of him. He is necessarily obliged to keep quiet for a time and it is hoped he will soon be able to attend to his work again.

Mr. McCoy is the fourth person in this place to sustain a fracture in as many weeks. It really seems to be getting epidemic. All but one of the fractures were broken ribs.

### AS OUT OF DATE AS HORSE CARS

Says Corn Rings, Plasters, Razor and Eating Salves Are Taboo Now

—Good things should be passed along. It is now said that a few drops of a drug called freezone applied directly upon a tender, aching corn relieves the soreness and soon the entire corn, root and all, can be lifted out without pain.

For a little cost a quarter of an ounce of freezone can be obtained from any drug store which is claimed to be sufficient to remove every hard or soft corn or callus from one's feet.

This is a drug recently announced from Cincinnati. It is gummy but dries the moment it is applied and simply shrivels up the corn without inflaming or even irritating the healthy tissue or skin.

Cut this out and lay it on your wife's dresser.—Advertisement.

### A Woman's Will

Woman's training is for the management of a home. She learns to spend an income prudently, but is seldom taught to earn an income. When she does earn one, it is by personal service rather than by investment. Like others, she must consider the disposition of her property when she is gone, but she is peculiarly handicapped in planning that disposition. A woman must be sure that her capital is safe. A man may venture what he has, knowing that in case of a loss, he can re-enter business and earn it back again. Not so a woman. Neither she nor her children are equipped for business, so their care must be to hold what they have. To hold it they need the counsel and assistance of men trained in the selection of investments, such men as control and direct the Orange County Trust & Savings Bank. Combined with the safety of their capital, women want certainty of income. However valuable their property, it will do them little good unless it yields a steady income. They can plan their household expenses if they know that they will receive a certain sum of money each month or year. Here again the counsel and assistance of men who have handled income properties and securities for many years becomes valuable. The Orange County Trust & Savings Bank is organized for just that sort of service. Its officers and directors were selected with that end in view. Consultation with them is free, and it is likewise confidential.
